| Area(s) of expertise              | Using heritage to inform environmental management; cultural heritage; interdisciplinary teams; policy and research  |
| Training:                         |   |
| Services provided:                | <ul style="list-style-type: none"> <li>• Strategic thinking and research to support decision making</li> <li>• Articulating aspirations, associations and connections to places</li> <li>• Historical backgrounds and cultural narratives</li> <li>• Cultural heritage advice and management of heritage sites</li> <li>• Developing management plans and tools</li> <li>• Evidence for Resource Management Act processes</li> </ul>  |
| Experience:                       | My professional experience in heritage has included practicing in central and local government and working with iwi and private clients. Most of that experience has focused on cultural heritage – artefacts/taonga, graves and monuments, landscapes, sites and practices. Since 2013, I have been based in the South Island and have predominantly worked for tangata whenua on influencing legislative processes such as the Resource Management Act and Conservation Act, and how heritage is used to inform environmental management as well as continuing cultural practices and connections to place. |
| Regions where practitioner works: | Predominantly South Island wide; available for North Island based work.   |

|                                   |   |
